List of You Ship We Ships

List of You Ship We Ships

A "you ship, we ship" is a program where a participant first builds and "ships" a project, and in return, they receive a reward, often hardware, from the organizer.

- Blueprint: Design a hardware project, up to $400 to build it! (ends 2025-12-01)
- Shiba Arcade: Make a game with Godot, earn SSS, and get invited to build an arcade in Tokyo (flight stipends available!) (ends 2025-10-20)
- Siege: Code every week, get prizes. Make it to the end, get a framework! (ends 2025-11-30)
- Emerge: create an emergent behaviour, place pixels on the group canvas, get the canvas shipped to you! (ends 2025-11-01)
- Reactive: Ship a website built with React, get $15 to buy a domain. (ends 2025-10-16)
- Fanpage: Ship a project that celebrates a fandom, and we ship you something related to it! (ends 2025-10-17)
- Hackberry: Built a machine learning project in python, get a personalized raspberry pi kit! (ends 2025-10-13)
- Waveform: Make your own waveform visualizer, get a grant to buy music (ends 2025-09-26)
- birthday-cards: You ship a birthday themed project we ship a birthday card! (ends 2026-08-12)
